ADS1298, 8-channel 24-bit biopotential AFE (TQFP-64)

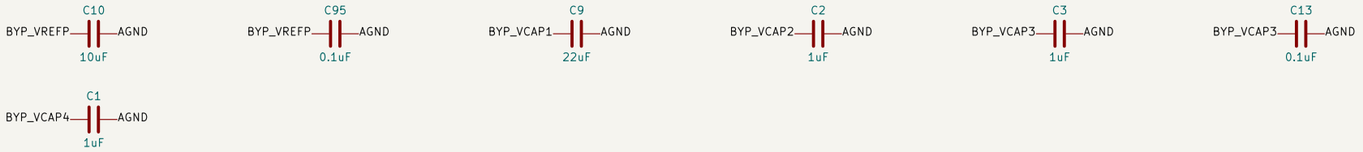

Analog supply bypass (AVDD)

Digital supply bypass (DVDD)

Reference (VREFP) and internal regulator capacitors (VCAP1 to VCAP4)

Right-leg drive and Wilson central terminal

Control pull-ups and DVDD load

Reference vref-0066 as admitted, with its own values, redrawn on KiCad library symbols; connectivity identical to the record in the design loop's references/vref-0066.
